

HIMALAYAN

HEALTH & HEARING INC.

COMPASSION IN *Action*

OUR VISION

To reduce the incidence of preventable hearing loss and disability.
To reduce the suffering of those currently living with hearing impairment.

OUR PROGRAM

This Program is made possible through multiple kindnesses and support, both in Australia and throughout the World.

Primary Ear Care & Community Health Camps remain the backbone of the HearingNEPAL Program & Himalayan Health & Hearing Inc.

HH&H now teams with Shechen Clinic and Hospice, supplying hearing services as part of their medical team's "underprivileged area health programs". In turn, the medical team also attend many of our "Hearing camps" in the Kathmandu region. This collaborative teamwork greatly enhances the benefits to all patients.

SERVICE PARTNER

Himalayan Health & Hearing Inc. will measure its success by the degree of sustainability of the services developed and delivered. With that aim, the program has been working collaboratively with members and staff from the Nepal Association of the Hard of Hearing since 2009, when joint ear camps to some of the more remote areas of Nepal were commenced.

GET INVOLVED

- Become a Member
- Fundraise
- Donate working hearing devices
