

HIMALAYAN HEALTH & HEARING INC.

COMPASSION IN *Action*

GIVE YOUR OLD HEARING AIDS
A NEW LIFE !

DONATE THEM

TO **HIMALAYAN HEALTH & HEARING**

Himalayan Health & Hearing is an Australian-based organisation, working with the local Himalayan people to develop hearing & health services in rural and remote areas of the Himalayas.

Our goal is to provide Primary Ear Care, Rehabilitation and Education to people in their communities.

Run by volunteers, in conjunction with our service partner **NAHOH** (Nepal Association of the Hard of Hearing.), 100% of funds raised go directly to providing services to the Himalayan people in their communities.

Hearing devices are a major expense for the program and second-hand hearing aids are always needed. They can be re-conditioned, re-programmed and custom fitted - they can change lives. Spare parts for cochlear implant processors are also valuable in a country where the initial device may have been sponsored by outside parties then ongoing maintenance is not provided for.

**Children gain the opportunity to learn
and adults can rejoin their communities,
find work and support their families.**

For more information about the program go to
